DETAILED ACTION

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 4 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Regarding claim 4, it is not clear how the holes are provided at a position above said receptacle since line 5 of claim 1 requires the at least pair of holes being formed in the container body.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 3 and 4 are rejected under 35 U.S.C. 102(b) as being anticipated by Gretz et al, Kouwenberg or Rankow et al.

Gretz, Kouwenberg or Rankow et al. teaches in the figures a container body with a receptacle (fig. 1), a lid body (14, 2 or 24, respectively), at least a pair of holes (40, 12, or 32, respectively), two toy members (42, 24, or 27, respectively) and the holes provided at a position above the receptacle as seen in figure 1.

Claim 7 is rejected under 35 U.S.C. 102(b) as being anticipated by Rumbough.

Art Unit: 3725

Rumbough teaches in the figures a container body with a receptacle (fig. 1C), an opening (fig. 1C), a sliding member (91), a pair of rails (22,28) and pictures (92).
